

September 21, 2011

Mr. Rip Cunningham, Chair  
New England Fishery Management Council

Dear Mr. Cunningham,

You have an important decision before you: to pass the scoping document and proceed with Amendment 18 to address fleet diversity and excessive consolidation. We urge you to take this important step as the future of our coastal fishing communities hinges on having a diverse fleet of fishing boats that nurture their communities, the marine ecosystem and fishing economies.

The undersigned group 1,200+ of fishermen, seafood consumer, marine conservation advocates and fishing community leaders urge the Council members to vote on the Amendment 18 scoping document and start the public process to explore alternatives to achieve a diverse fishing fleet, which will:

- Anchor fishing privileges to fishing communities.
- Limit the share of the catch of any one fisherman or fishing operation.
- Incentivize and reward owner operators.
- Ensure affordable access for new fishermen.

The undersigned are committed to support all policies that promote a more diverse fleet and oppose all policies that seek to further consolidate the fleet and disproportionately squeeze out the independent community based fishermen, make it hard for new fishermen to enter the fishery, endanger our access to locally caught seafood at an affordable price and lead to deterioration of the infrastructure in our fishing communities.

We look forward to participating in the Amendment 18 process and thank you in advance for voting to move the scoping process forward.

Sincerely,

Doug Maxfield
